

Modifications to the Project Planning Grid from the October 2021 Steering Committee Meeting

Project Grid Updates

- Removed 2021 assessment blocks
- Added an additional SAFMC analyst column, which will be available beginning in 2024, per direction from the Science Center
- Adjusted the ASMFC/GMFMC column title to reflect feedback from the Steering Committee
- Removed shrimp from the CMP column and moved to the GMFMC column to reflect feedback from the Steering Committee
- Sheet size was increased from regular to legal

South Atlantic Assessment Modifications:

- Spanish Mackerel OA – The assessment block was extended to reflect the additional webinars requested by the lead analyst
- Vermilion Snapper OA – The assessment block was extended to reflect feedback from the Science Center
- Red Grouper OA – Schedule extended to reflect feedback from the Science Center

Gulf of Mexico Assessment Modifications:

- No adjustments were made

Caribbean Assessment Modifications:

- No adjustments were made

HMS Assessment Modifications:

- Bull, Spinner, Tiger, and Finetooth Assessment start time was moved back to account for the Planning Team meeting

FL FWCC Assessment Modifications:

- Mutton Snapper Benchmark (SEDAR 79) was removed from 2022. It was placed in 2023 in orange.
- Hogfish and Black Grouper assessment blocks were moved back to account for the shift in Mutton Snapper timing.

Commission Assessment Modifications:

- ASMFC Red Drum Review Workshop - Moved to the beginning of 2024 to reflect feedback from the Commission

CMP Assessment Modifications:

- No adjustments were made
